

**TOWN OF PRIMROSE
ROAD INSPECTION
FRIDAY, APRIL 18, 2008 – 10:00 A.M.**

MINUTES

Members Present: Dale Judd, Dave Garfoot, Alex Elkins, Patrolman Bruce Stamm

First we looked at a site on the north end of Ness Rd. There is a spot in the middle of the road that keeps sinking. Nolden Construction is going to dig up the site on April 21 to see if it can be fixed properly.

Second we looked at LaFollette Rd. Bids will be accepted for overlay work on LaFollette Rd. starting at Steve Sponem's and head on North for as much overlay as funds allow. Overlay must be full road width and meet state standard.

Third we looked at a culvert on Erfurth Road that needs some repair.

NOTE: Board has decided to do only overlay work this year and do sealcoat work next year. This is due to the increasing cost of road maintenance.
